TOUR THE HIGH SIERRA

IF YOU *Really* LIKE TO FISH OR HUNT . .

We'd like to introduce you to a new outdoors experience.

In years past, the hiring of a local guide was determined to be one of the luxuries of the wealthy fisherman. Today, however, the increased pressure on our game fish by more thousands of anglers and the now popular use of a licensed guide has brought the cost down within reach of the vacationing fisherman.

Angling success with the use of a licensed guide is greater because the guide knows where and how to find the elusive trout. Scientific methods as well as time honored "tricks of the trade" are employed.

Guide service in the Bridgeport area of the Sierra is especially rewarding because of the diversity of trout species and their habitat. A day aboard the 17-foot BVTR semi-cruiser with 70 hp mercury engine on Bridgeport Lake or Twin Lakes is an experience for the sporting angler. Short hiking trips to nearby seldom fished streams provide added pleasure.

Hunting with a guide is an asset to the hunter who is not entirely acquainted with the terrain in the Bridgeport area. Chances of success are far greater with the use of a guide.

Bait and tackle are provided for fishing and transportation is provided for hunting.
